

| | |
|--------------|---------------------------------------|
| Course Title | Digital SLR Photography for Beginners |
| Tutor | Levin Haegele |
| Day & time | Tuesdays, 6.30 - 9.00pm |
| Dates | 16/01/2018 - 30/01/2018 |
| Course Code | EC1702098 |
| Level | Beginners |
| Cost | £95 |

What topics do we cover?

We will cover the settings of the camera as well as the relationship between aperture, shutter speed, and ISO to create a good exposure. Students will also gain an understanding of JPEG vs RAW files and the different metering modes that their camera is capable of. We will also cover simple post-production techniques towards the end of the course using Photoshop CC 2017. Students will also be given assignments for the following week.

By the end of this course you will:

Fully understand all aspects of your camera to take proper exposures in a variety of environments. Students will essentially never want to shoot in full automatic mode again.

Are there any other costs? What else should I bring each week?

You **must** bring your own digital SLR camera to class for every session as this course is designed to teach students how to use their own cameras.

Students are also advised to bring a USB memory stick with them to backup their work. Though there will be the possibility of storing files on the computers we cannot take responsibility for the safe keeping of these files.

| Week | Date | Topic/skills covered | Location and Tutor | What to bring |
|-------------|----------------------|--|---------------------------|----------------------|
| 1 | 16 th Jan | How do aperture, shutter speed, and ISO work create exposure. | Digital Suite | Digital SLR camera |
| 2 | 23rd Jan | Focusing and metering modes. Depth of field and types of lighting. | Digital Suite | Digital SLR camera |
| 3 | 30th Jan | Troubleshooting photographs. Introduction to post-production techniques. | Digital Suite | Digital SLR camera |

Who can I contact for further information?
