DAILY BREAKDOWN

Date	Topics/ Skills covered
23 January 2019	Day one will start with a workshop induction, which will cover Health and Safety, Person Protective equipment and an introduction to welding and plasma cutting. The course will begin with a tutor led project, creating 3D letters.
30 January 2019	There will be a PowerPoint presentation on the basics of sculpture, artists and metal. This class will include an angle grinder induction. You will continue with your 3D letters and begin to plan your personal project
6 February 2019	You will continue and complete your 3D letters. Next you will begin working on your personal project with technical and theoretical assistance from the tutor.
13 February 2019	You will continue working on your personal project with technical and theoretical assistance from tutor. You will receive individual feedback from the tutor.
20 February 2019	You will continue working on your personal project with technical and theoretical assistance from the tutor.
27 February 2019	You will continue working on your personal project with technical and theoretical assistance from the tutor. There will be a group discussion about each individual project.
6 March 2019	There will be a PowerPoint on sculpture artists, theories around sculpture such as brutalism and minimalism and material (metal) within sculpture. You will continue working on your personal project with technical and theoretical assistance from the tutor.
13 March 2019	You will continue working on your personal project with technical and theoretical assistance from the tutor.
20 March 2019	You will continue working on your personal project with technical and theoretical assistance from tutor. You will receive individual feedback from the tutor.
27 March 2019	You will finish your personal project. There will be a final group feedback/discussion at the end of the class.
